LIST OF CONTENTS

		Validity Date
1.	Introduction	01.01.2024
1.1	General	
1.2	Purpose	
1.3	Objective	
1.4	Applicability and Scope	
1.5	Requirement Regulations and Guidelines	
1.6	Relation to the International Safety Management (ISM) Code	
2.	Principles of Operation	01.01.2024
2.1	General	
2.2	Necessity of Planning	
2.3	Recovery Operation from Water	
2.4	Safety Precautions	
3.	Roles and Responsibilities	01.01.2024
3.1	Responsibility of Master	
3.2	Duties of the Crew	
4.	Competence and Familiarization	01.01.2024
4.1	Drills and Records	
5.	Risk Assessment with Anticipated Conditions and Ship Characteristics	01.01.2024
6a	Ship Particulars	01.01.2024
6.1	Main particulars	
6.2	Plans and Documents	
6.3	Ship-Specific Arrangements	
6.4	Ship's Specification of Equipment	
6.5	Available Crew and personal protective equipment (PPE)	
6.6	Other Equipment details	
6.7	List of other recovery tools (Apart from LSA Plan).	
6.8	Dynamic particulars under which vessel can attempt recovery operations	
6.9	Maneuverability Parameters.	
6b	Ship Specific Procedures.	01.01.2024
6b.1	Operational Methods employed.	
6b.2	Planning for recovery	
6b.3	Ship accessing to the distress area.	
6b.4	Providing assistance prior to recovery.	
6b.5	Bringing people to side of ship.	
6b.6	Lifting people aboard the ship	
6b.7	Standing by when people cannot be recovered.	
6b.8	Immediate care of people recovered	
6b.9	Preparations prior to the Arrival of the Helicopter.	
6b.10	Personal transfer by helicopter.	
6b.11	Use of Rocket Line throwing apparatus.	
6b.12	Breeches Buoy	
6b.13	Man overboard maneuvers	
7	Crew Organization and Duties	01.01.2024
7.1	Organization of Personnel	
7.2	Duties
